

# Visual Design

## Year 8 Elective

# What is Visual Design?

Visual design looks at the art forms that are used in the commercial world of design. Areas such as fashion design, ceramics, product design and wearables are studied with selected designers in these fields used for research tasks.

Students will explore forms such as drawing, painting, construction, printmaking, ceramics sculpture and mixed media.

# Sneaker Design

Sneaker Design – Design a pair of fashionable sneakers using paint, found objects, spray paint and posca pens.

# Functional Ceramics

Functional Ceramics –Design a piece of functional ceramics using coils, slabs and pinch pots.

# Tree House Design

Tree House Design-design a tree house using popsicle sticks and found objects.

# Christmas Decor

Christmas decor— Create Christmas decorations with a range of printing and construction techniques.
