

Year 11

Assessment Booklet 2023

1. Introduction:

This document provides information relating to the assessment of the Year 11 courses at Kiama High School. The purpose of assessment is to:

- Assist student learning:
 - Evaluate and improve teaching and learning programs;
 - Assess student achievement in the course;
 - o Provide evidence of satisfactory completion of the course

At the end of Term 3 2022, the school will submit a Record of School Achievement (RoSA) grade for each student to the NSW Education Standards Authority (NESA). The grade is intended to indicate the student's achievements at the end of their Year 11 courses.

Assessment marks are based on:

- A wider range of syllabus outcomes than can be measured by the formal examinations; and
- Multiple measures and observations made throughout the Year 11 courses, rather than a single assessment event.

Measuring achievement at several points during the course can provide a better indication of student achievement than a single, final assessment event. This also caters for knowledge and skills outcomes that are better assessed in specific settings or times, such as fieldwork and practical skills.

2. The Assessment Program

The 2023 Year 11 Assessment Program begins during Term 1, 2023 and will continue up to the Final Examinations in Term 3, 2023. This booklet outlines, for each course studied the:

- Number of tasks
- Weightings for each task
- Scheduling of tasks terms and weeks. There is generally, two weeks' notice for the specific task throughout the assessment period.
- General nature of tasks
- KHS policies with respect to student absences for tasks, late submissions of tasks, illness and misadventure processes, addressing malpractice and student appeals.

While scheduling is provided as a guide, unforeseen circumstances may result in a change of date for an assessment task. Generally, students should expect at least two weeks' notice in writing if a change is necessary.

3. Assessment marks and rankings

Students will be provided with an assessment mark (and rank where appropriate) for each assessment task completed. If necessary, students should appeal against an individual mark or ranking at the time the mark and ranking are received.

In addition, students will be supplied with a grade and grade distribution scale for each reporting period. A final rank can be supplied after the completion of the Final Examinations at the end of Term 3.

4. Satisfactory Completion of Courses

NESA has stipulated that a student will be considered to have satisfactorily completed a course if, in the Principal's view, there is sufficient evidence that the student has:

- A. Followed the course developed or endorsed by the Authority; and
- B. **Applied** themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- C. Achieved some or all of the course outcomes.

Students must make a genuine attempt to complete course requirements and it is a matter for the teacher's professional judgement to determine whether a student has made a genuine attempt to complete the requirements.

Further, a student must make a genuine attempt at assessment tasks.

Students must also fulfil the course completion criteria above.

Until a student presenting for a Higher School Certificate has satisfactorily completed courses totalling at least 12 units of Year 11 courses and 10 units of Year 12 courses that satisfy NESA's pattern of study requirements, the student will not be eligible to receive the award of a Higher School Certificate.

Vocational Education and Training (VET) students are required to complete a total of **70 hours of mandatory work placement**, as mandated by NESA. Work placement is broken up into two blocks – 35 hours in Year 11 (generally in term three) and 35 hours in Year 12. Failure to complete these hours may mean that the student is not eligible for their HSC.

Students who have not complied with the above requirements cannot be regarded as having satisfactorily completed the course. The Principal will then apply the "N" Determination (non-completion of course requirements).

If, at any time, it appears the student is at risk of being given an "N" Determination, in any course, the Principal must warn students as soon as possible and advise the parent or guardian – in writing, if the student is under 18 years of age.

Students are expected to complete all tasks required – both assessable and non-assessable – in all courses that are studying.

5. 'N' Determinations

If at any time, it appears the student is at risk of receiving an 'N' Determination in any course, the Principal must:

- Advise the student of the tasks or actions to be undertaken in time for the problem to be corrected and alert the student to the possible consequences of an 'N' Determination;
- Advise the parent or guardian, in writing, if the student is under the age of 18;
- Request from the student/parent/guardian a written acknowledgement of the warning'
- Issue at least one follow-up warning letter, if the first letter is not effective.

6. Attendance

Principals may determine that, as the result of absence, the course completion criteria might not be met. Students whose attendance is called into question will be required to prove, to the Principal's satisfaction, that they are meeting the course criteria.

At Kiama High School, students who are absent for more than **eight days per term** may have their performance reviewed. In individual subjects, students who are absent **for eight periods in a subject per term** may also have their performance reviewed.

Absences in assessment tasks or examination notification periods:

It is considered **UNFAIR ADVANTAGE** if a student, **without a valid reason**:

- Is not in attendance at all classes with the notification period before any assessment task or exam; or
- Arrives more than 20 minutes late to their first scheduled class on the day of an assessment task or in-class exam; and/or
- Does not attend ALL scheduled classes on the day of the assessment task or in-class exam.

Any absence in the school day prior to and/or on the day of the task will require a medical certificate.

It is not acceptable for a student to attend school to fulfil the requirements of an assessment task **only** and not be present at timetabled lessons for that particular day.

Students taking unfair advantage will have their marks penalised by an amount determined by the Assessment Review Panel, **but not less than 20%.**

NOTE:

During formal examination periods (final examinations etc), students in Year 11 are not required to attend normal lessons.

7. Student Responsibilities

Students must:

- Ensure they have a copy of the Assessment Schedule for each course studied;
- Ask their class teacher, after absences, whether any assessment notification has been given;
- Present work according to the schedule of dates for assessment tasks;
- Be aware of the penalties for late or non-submission of assessment tasks;
- Be aware of the procedure to be followed if absent when a task is to be submitted, or completed;
- Attend all classes;
- Be aware of the procedures to be followed if absent for a formal examination;
- Satisfactorily explain al full and patrial absences;
- Submit an *Assessment Task Appeal Form*, with supporting documentation, within two days of return to school after an absence from an assessment task.

When submitting work, students must:

- Present their own work;
- Submit work in an appropriate format;
- Submit assessment tasks **BEFORE 8:55AM** on the due date, unless they are to be completed as a discrete task in a scheduled lesson on the prescribed day or unless the Assessment Task Notification specifies submission at a different time.
- Not interfere with the efforts of others.

NOTE:

Failure to submit an Assessment Task as per the requirements stated on the Assessment Task Notification may result in ZERO MARKS being awarded. Students may submit an Assessment Task Appeal Application

8. Teacher Responsibilities

The Deputy Principal must ensure that students have a copy of the Assessment Schedule.

Class teachers must:

- Follow the assessment schedule for their course;
- Provide students at least two weeks written notice of the date of an assessment task following NESA protocol for HSC internal assessment;
- Ensure that absent students receive the information the next time the student attends the class;
- Schedule tasks, as best as possible, such that they do not conflict with other assessment tasks;
- Negotiate a suitable date with students concerned, in the event an assessment task needs to be rescheduled. Generally, at least two-weeks' written notice should be given.

NOTE:

Students who are absent on the notification date of an assessment task may NOT request or be granted an extension on the basis of that absence. This includes absence due to TAFE or VET commitments, sporting events or any other school endorsed activity. It is each student's responsibility to be aware of the scheduling of a task in their courses and request any task notification sheets from their teacher upon their return to class.

9. Assessment Task Appeals

As has been mentioned, it is a student's responsibility to ensure that they are present for scheduled Assessment Tasks. If, however, a student becomes ill or suffers an accident that prevents them from attending school, completing an assessment task by the due date, the student should submit an **Assessment Task Appeal Application Form.**

These are available from:

- The Year 11 Deputy Principal,
- The KHS Administration office,
- The sign-on desk in the library
- The KHS website,
- The Year Advisor

The completed **Assessment Task Appeal Application Form,** together with supporting documentation, must be returned to the Year 11 Deputy Principal within **two** days of a student's return to school, after an absence, or within **two** days of the assessment task date, if there was no absence from school.

A sample **Assessment Task Appeal Application Form** is available at the back of this booklet. Further information about Grounds for Appeal under Illness/Misadventure may be found at the NESA website http://ace.bos.nsw.edu.au/ace-11004.

NESA notes that the following are **NOT grounds for appeal** under the Illness/Misadventure process:

- Attendance at a sporting or cultural event, or family holiday;
- Alleged inadequacies of teaching or long-term matters relation to loss of preparation time, loss of study time or facilities;
- Disabilities for which the school has already granted disability provisions, unless an unforeseen episode occurs during the examination/assessment task.

Students **should not plan absences during term time,** unless there are exceptional circumstances (e.g. a medical operation). In general, family holidays *will not* be considered to be exceptional circumstances. Any requests for special consideration should be discussed with the Principal well before the date in question.

Technology issues, such as printer or computer failure are NOT deemed an acceptable reason for late submission of a task. It is the student's responsibility to ensure that all digital work is backed up and/or stored in multiple platforms.

10. Reasonable Request for Consideration

If a student knows in advance they are to be absent on the day of completion of an Assessment Task, they must complete an **Assessment Task Appeal Application Form**.

There are three types of consideration:

1. School Business

Where a student is attending a school-based excursion, sporting event, cultural event or performing arts event, or representing the school in some way. The student will see the Year 11 Deputy Principal for an *Assessment Task Appeal Application Form*. They will then obtain a signature from the event's organising teacher, confirming the student's participation in the school-based event. The student will then complete the form, returning it to the Year 11 Deputy Principal. An alternative date will be organised for completion of the Assessment Task. No penalty will apply.

2. Non-School Business

Where a student is attending an appointment (e.g. medical, dental) or a family, religious or cultural event. The student will see the Year 11 Deputy Principal for an *Assessment Task Appeal Application Form*. They will then complete the form, returning it to the Deputy Principal, together with any supporting documentation. An alternative date will be organised for completion of the Assessment Task. The Assessment Task Review Panel will determine the result of the appeal.

3. Exceptional circumstances

Where a student feels that they have a genuine inability to meet a scheduled due date because of unforeseen events. This may be deemed a genuine misadventure and an extension may be granted for the task. Students seeking this consideration need to notify the Year 11 Deputy Principal at least

four days prior to the date of the assessment task to initiate the process, ensuring its completion two days prior to the scheduled date of the task.

NOTE:

Requests for consideration may not be granted if the student has completed the necessary process TWO FULL SCHOOL DAYS prior to the scheduled date of the Assessment Task.

If there is any doubt about Assessment Task Procedures, including submissions of tasks, Illness/Misadventure processes or satisfying course outcomes, please contact the School.

11. Vocational Education and Training (VET)

All students studying VET courses – Construction, Hospitality and Metals and Engineering – will be provided with a separate assessment booklet in Term 1, 2021. If you have any inquiries, please see Ms. Van Kruyssen (VET Coordinator) or Ms. Chapman (Head Teacher TAS).

12. Year 11 Life Ready

The following is an extract taken from the NSW Department of Education website:

"Life Ready is a MANDATORY 25-hour course designed to prepare and support senior students as they encounter situations related to health and safety as they become more independent and gain more responsibilities. It focuses on offering opportunities for students to build the functional knowledge and skills for life post school. The content of the school's Life Ready program should be based on the needs and interests of students. This means that each year, every school should develop a program that is relevant to the particular group or cohort of senior students. The planning, delivery and evaluation of Life Ready should be guided by student learning needs and community context."

Kiama High School is able to vary the way in which we organise our curriculum, and to structure timetabled events to suit our student cohort, in order to deliver this course. Please note that implementation may differ across schools to accommodate their own particular context and using the resources available.

At Kiama High School, Life Ready will be delivered to Year 11 students during Term 1, Week 11 2022. Attendance during the delivery of the Life Ready course is important so that your child can be signed off as completing the course outcomes.

In order to be eligible for the Higher School Certificate, the Life Ready component of Stage 6 must be completed. Kiama High School encourages all students to attend this week as a normal school week and not to plan other activities during this time.

- EA11-2 uses and evaluates processes, skills and knowledge required to effectively respond to and compose texts
- EA11-3 analyses and uses language forms, features and structures of texts considering appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning
- EA11-4 strategically uses knowledge, skills and understanding of language concepts and literary devices in new and different contexts
- EA11-5 thinks imaginatively, creatively, interpretively, and critically to respond to, evaluate and compose texts that synthesise complex information, ideas, and arguments
- EA11-6 investigates and evaluates the relationships between texts
- EA11-7 evaluates the diverse ways texts can represent personal and public worlds and recognises how they are valued
- EA11-8 explains and evaluates cultural assumptions and values in texts and their effects on meaning
- EA11-9 reflects on, evaluates, and monitors own learning and adjusts individual and collaborative processes to develop as an independent learner

Skills in: Comprehending texts Communicating ideas Using language accurately, appropriately, and effectively	50%	15%	15%	20%
	100%	30%	30%	40%

ES11-1	comprehends and responds to a range of texts, including short and extended texts, literary texts and texts from academic, community, workplace and social contexts for a variety of purposes
ES11-2	identifies and uses strategies to comprehend written, spoken, visual, multimodal and digital texts that have been composed for different purposes and contexts
ES11-3	gains skills in accessing, comprehending and using information to communicate in a variety of ways
ES11-4	composes a range of texts with increasing accuracy and clarity in different forms
ES11-5	develops knowledge, understanding and appreciation of how language is used, identifying
	specific language forms and features that convey meaning in texts
ES11-6	uses appropriate strategies to compose texts for different modes, media, audiences, contexts and purposes represents own ideas in critical, interpretive, and imaginative texts identifies and describes relationships between texts
ES11-7	represents own ideas in critical, interpretive and imaginative texts
ES11-8	identifies and describes relationships between texts
ES11-9	identifies and explores ideas, values, points of view and attitudes expressed in texts, and considers ways in which texts may influence, engage and persuade
ES11-10	monitors and reflects on aspects of their individual and collaborative processes in order to plan for future learning

Mandatory Components

Knowledge and understanding of course content	40%		10%	30%
Knowledge and skills in researching, analysis and evaluating	30%	10%	10%	10%
Skills in experimenting with and preparing food by applying theoretical concepts	30%	20%	10%	
	100%	30%	30%	40%

- P1.1 identifies and discusses a range of historical and contemporary factors which influence the availability of particular foods
- P1.2 accounts for individual and group food selection patterns in terms of physiological, psychological, social and economic factors
- P2.1 explains the role of food nutrients in human nutrition
- P2.2 identifies and explains the sensory characteristics and functional properties of food
- P3.1 assess the nutrient value of meals/diets for particular individuals and groups
- P3.2 presents ideas in written, graphic and oral form using computer software where appropriate
- P4.1 selects appropriate equipment, applies suitable techniques and utilises safe and hygienic practices when handling food
- P4.2 plans, prepares and presents food which reflect a range of the influences on food selection
- P4.3 selects foods, plans, prepares meals/diets to achieve optimum nutrition for individuals and groups
- P5.1 generates ideas and develops solutions to a range of food situations

	100%	20%	40%	40%

Course Outcomes

P1.1:	establishes and	l maintains d	communication	in French

P1.2: manipulates linguistic structures to express ideas effectively in French

P1.3: sequences ideas and information

P1.4: applies knowledge of the culture of the French speaking communities to interact appropriately

P2.1: understands and interprets information in texts using a range of strategies

P2.2: conveys the gist of and identifies specific information in texts

P2.3: summarises the main points of a text

P2.4: draws conclusions from or justifies an opinion about a text

P3.1: produces texts appropriate to audience, purpose and context

P3.2: structures and sequences ideas and information

P3.3: applies knowledge of diverse linguistic structures to convey information and express original ideas in French.

TASK NAME	Biophysical Interactions Fieldwork Task	Senior Geography Project	Final Examination
DUE DATE	Term 1 Week 10	Term 3 Week 2	Term 3 Weeks 8 & 9
WEIGHTING	25%	35%	40%
OUTCOMES ASSESSED	P1, P2, P3, P9, P10,	P7, P8, P9, P10, P11, P12	P2, P3, P4, P5

Mandatory Components

Knowledge and understanding of course content	40%	10%	10%	20%
Geographical tools and skills	20%	5%	5%	10%
Geographical inquiry and research, including fieldwork	20%	10%	10%	
Communication of geographical information, ideas and issues in appropriate forms	20%		10%	10%
	100%	25%	30%	40%

- P1 differentiates between spatial and ecological dimensions in the study of geography
- P2 describes the interactions between the four components which define the biophysical environment
- P3 explains how a specific environment functions in terms of biophysical factors
- P4 analyses changing demographic patterns and processes
- P5 examines the geographical nature of global challenges confronting humanity
- P6 identifies the vocational relevance of a geographical perspective
- P7 formulates a plan for active geographical inquiry
- P8 selects, organises and analyses relevant geographical information from a variety of sources
- P9 uses maps, graphs and statistics, photographs and fieldwork to conduct geographical inquiries
- P10 applies mathematical ideas and techniques to analyse geographical data
- P11 applies geographical understanding and methods ethically and effectively to a research project
- P12 communicates geographical information, ideas and issues using appropriate written and/or oral, cartographic and graphic forms

Mandatory Components

Knowledge and understanding of course content	40%	10%		30%
Knowledge and skills in the management, communication, and production of projects	60%	20%	40%	
	100%	30%	40%	30%

- P1.1 describes the organization and management of an individual business within the focus area industry
- P1.2 identifies appropriate equipment, production and manufacturing techniques, including new and developing technologies in industry
- P2.1 describes and uses safe working practices and correct workshop equipment maintenance techniques
- P3.1 sketches, produces and interprets drawings in the production of projects
- P3.2 applies research and problem solving skills
- P3.3 demonstrates appropriate design principles in the production of projects
- P4.1 demonstrates a range of practical skills in the production of projects
- P4.2 demonstrates competency using a range of practical skills in the production of projects
- P4.3 identifies and explains the properties and characteristics of materials/components through the production of projects
- P5.1 uses communication and information processing skills
- P5.2 use appropriate documentation techniques related to the management of projects
- P6.1 identifies the characteristics of quality manufactured products
- P6.2 identifies and explains the principles of quality and quality control
- P7.1 identifies the impact of one related industry on the social and physical environment
- P7.2 identifies the impact of existing, new and emerging technologies of one related industry on society and the environment

Communication of legal information, ideas and issues in appropriate forms	20%	10%	5%	5%
	100%	30%	30%	40%

- P1 identifies and applies legal concepts and terminology
- P2 describes the key features of Australian and international law
- P3 describes the operation of domestic and international legal systems
- P4 discusses the effectiveness of the legal system in addressing issues
- P5 describes the role of law in encouraging cooperation and resolving conflict, as well as initiating and responding to change
- P6 explains the nature of the interrelationship between the legal system and society
- P7 evaluates the effectiveness of the law in achieving justice
- P8 locates, selects and organises legal information from a variety of sources including legislation, cases, media, international instruments and documents
- P9 communicates legal information using well-structured responses
- P10 accounts for differing perspectives and interpretations of legal information and issues

Knowledge and understanding of course content	50%	5%	5%	40%
Skills, outcomes and content	50%	25%	25%	
	100%	30%	30%	40%

- 1.1 relates with a respectful and caring attitude to the ocean and its life forms
- 1.2 identifies the roles of individuals or groups involved in maritime activities
- 1.3 recalls aspects of the maritime environment using relevant conventions, terminology and symbols learned throughout the course
- 1.4 recognises Aboriginal and Torres Strait Islander values and attitudes toward the sea
- 1.5 demonstrates an awareness of the value of the ocean as a source of historical information
- 2.1 appreciates the importance of effective management practice
- 2.2 works effectively within a group
- 2.3 communicates information by writing reports, giving short talks and contributing to discussions
- 3.1 evaluates information, situations, equipment manuals and written or manual procedures
- 3.2 collects and organises data by accurately reading instruments, signals and charts; by systematic recording, summarising, tabulating and graphing
- 3.3 generates information from data by calculating, inferring, interpreting and generalising
- 3.4 carries out planned research activities using appropriate measurements, observations, classification and recording skills
- 4.1 identifies marine vocations and a range of leisure pursuits
- 4.2 appreciates marine environments as sources of employment and leisure
- 5.1 values the rules and operating principles of marine equipment and applies them
- 5.2 applies information including weather, regulations, procedures and skills to ensure safe use of marine environment
- 5.3 interprets and follows instructions, with accuracy
- 5.4 selects, organises, assembles, dismantles, cleans, and returns equipment

Problem solving, reasoning and justification	50%	13%	17%	20%
	100%	25%	35%	40%

MA11-1	uses algebraic and graphical techniques to solve and, where appropriate, compare alternative solutions to problems
MA11-2	uses the concepts of functions and relations to model, analyse and solve practical problems
MA11-3	uses the concepts and techniques of trigonometry in the solution of equations and problems involving geometric shapes
MA11-4	uses the concepts and techniques of periodic functions in the solutions of trigonometric equations or proof of trigonometric identities
MA11-5	interprets the meaning of the derivative, determines the derivative of functions and applies these to solve simple practical problems
MA11-6	manipulates and solves expressions using the logarithmic and index laws, and uses logarithms and exponential functions to solve practical problems
MA11-7	uses concepts and techniques from probability to present and interpret data and solve problems in a variety of contexts, including the use of probability distributions
MA11-8	uses appropriate technology to investigate, organise, model and interpret information in a range of contexts
MA11-9	provides reasoning to support conclusions which are appropriate to the context

Problem solving, reasoning and justification	50%	17%	13%	20%
	100%	35%	25%	40%

ME11-1	uses algebraic and graphical concepts in the modelling and solving of problems involving functions and their inverses
ME11-2	manipulates algebraic expressions and graphical functions to solve problems
ME11-3	applies concepts and techniques of inverse trigonometric functions and simplifying
	expressions involving compound angles in the solution of problems
ME11-4	applies understanding of the concept of a derivative in the solution of problems, including rates of change, exponential growth and decay and related rates of change
ME11-5	uses concepts of permutations and combinations to solve problems involving counting or ordering
ME11-6	uses appropriate technology to investigate, organise and interpret information to solve problems in a range of contexts
ME11-7	communicates making comprehensive use of mathematical language, notation, diagrams and graphs

- P1 performs stylistically, music that is characteristic of topics studied, both as a soloist and as a member of an ensemble
- P2 observes, reads, interprets and discusses simple musical scores characteristic of topics studied
- P3 improvises and composes music using the range of concepts for familiar sound sources reflecting the cultural and historical contexts studied
- P4 articulates an aural understanding of musical concepts and their relationships in a wide variety of musical styles
- P5 comments on and constructively discusses performances and compositions
- P6 critically evaluates and discusses the use of the concepts of music in works representative of the topics studied and through wide listening
- P7 understands the capabilities of performing media, explores and uses current technologies as appropriate to the topics studied
- P8 identifies, recognises, experiments with and discusses the use of technology in music
